CANTILEVER RACKING SYSTEMS

Free up valuable space in your warehouse or yard and make picking stock fast and easy. Versatile cantilever racking is excellent for long or heavy loads such as pipes or timber, and items of varying length.

Specifications	Key features	Applications
Towers up to 10m high	Available in Powder-coated or hot-dipped galvanised finish (for outdoor storage solutions)	Storing long and heavy loads
Arm lengths up to 2m long	Designed and pre-punched for both single and double-sided tower use	Pipes, timber, steel
Load ratings up to 1500kg per arm	Adjustable heights and removable arms	Palletised goods
Extra arms and towers can be added	Removable pin on the arms acts as a stop to keep loose loads in place	Varying length items
Wire Mesh shelves can be added	Highly modular	
	Incredibly strong allowing for extra heavy loads	
	Loads are easily accessible from the front	
	Powder coating in the colour of your choice
